A wide range of possibilities for long-range missions.
Mission flexibility. Affordability. Proven reliability. All make the King Air the preferred aircraft for most special missions, including aerial survey, air ambulance, surveillance and transport. Low acquisition and operating costs make it cost effective. The ability to go anywhere in the world without additional fuel tanks, and loft times of more than 12 hours make it highly desirable. Highly engineered durability make it perfect for the harshest environments—including extreme temperatures and unimproved runways.

**PERFORMANCE**

| Max. Range | 2,560 nm | 4,741 km |
| Max. Endurance | +12 hours |

**WEIGHTS**

| Ramp | 16,600 lb | 7,530 kg |
| Max. Gross Takeoff | 16,500 lb | 7,484 kg |
| Zero Fuel Weight | 13,000 lb | 5,897 kg |
| Empty Weight (Mission Interior) | 9,320 lb | 4,227 kg |
| Max. Fuel Capacity | 5,192 lb | 2,355 kg |
| Max. Useful Load | 7,280 lb | 3,302 kg |
| Useful Load (3,611 lb Fuel) | 3,669 lb | 1,664 kg |
| Useful Load (Full Fuel) | 2,088 lb | 947 kg |

Specifications listed without mission sensors.

**Ready for civilian and military missions**

**Equipped With:**
- Rockwell Collins® ProLine 21™ avionics
- Rockwell Collins® HF w/SELCAL
- Rockwell Collins® TCAS-4000
- 2nd FMS and GPS
- Search patterns
- Video capable display
- 2nd ADF and 2nd DME
- Forward-facing toilet

**Special Missions Options:**
- Radome
- EO/IO lift with fairing
- Drop hole
- Bubble observation windows
- Aft strakes
- High-capacity seating
- Air ambulance sleds and cabinetry
- 400 amp generators
